DEFINITIONS AND ASSUMPTIONS

Criminal Summons

When a person is issued a Virginia Uniform Summons related to a criminal charge (not traffic) to appear in court on the indicated date and released on their own recognizance. Civil Fines are also included in this count.

Number of Charges versus Number of Arrestees

A charge is the formal accusation by the authorities that the accused has committed a specified offence. When the authorities present the accused with one or more charges, then the accused is known as an arrestee. The number of charges may exceed the number of arrestees due to multiple charges being placed during an incident.

Example

A Call For Service occurs for a loud party. During the incident, the suspect is charged with excessive noise and possession of a large knife. The resulting counts are 1 arrestee and 2 charges.

Arrest data is not equivalent to conviction data and does not exclude those who may have been diverted from the judicial system. Criminal Summons Charge data with race, gender, or magistrate fields left blank have been marked as unknown for the purposes of this report.

DEFINITIONS AND ASSUMPTIONS

Traffic Summons

When a person is issued a Virginia Uniform Summons related to a traffic charge(not criminal) to appear in court on the indicated date and released on their own recognizance.

Number of Charges versus Number of Arrestees

A charge is the formal accusation by the authorities that the accused has committed a specified offence. When the authorities present the accused with one or more charges, then the accused is known as an arrestee. The number of charges may exceed the number of arrestees due to multiple charges being placed during an incident.

Example

A traffic stop occurs for speeding. During the stop, the driver is charged with speeding, no seat belt, and a suspended operator's license. The resulting counts are 1 arrestee and 3 charges.

Arrest data is not equivalent to conviction data and does not exclude those who may have been diverted from the judicial system.

Criminal Summons Charge data with race, gender, or magistrate fields left blank have been marked as unknown for the purposes of this report.

DEFINITIONS AND ASSUMPTIONS

Traffic Warning

When a person is stopped for a traffic infraction and the officer decides a warning is appropriate with no further action required.

Number of Charges versus Number of Arrestees

A traffic warning is the formal recognition by the authorities that the accused has committed a specified infraction. When the authorities present the individual with one or more traffic related warnings, then the individual is known as an advisee. The number of traffic warnings may exceed the number of advisees due to multiple traffic warnings being presented during an incident.

Example

A traffic stop occurs for a missing taillight. During the stop, the driver is informed that the taillight is not working, they need to always wear a seat belt, and to carry the operator's license when driving. The resulting counts are 1 advisee and 3 traffic warnings.

Traffic Warning data with race, gender, or magistrate fields left blank have been marked as unknown for the purposes of this report.

DEFINITIONS AND ASSUMPTIONS

Traffic Warning

When a person is stopped for a traffic infraction and the officer decides a warning is appropriate with no further action required.

Number of Charges versus Number of Arrestees

A traffic warning is the formal recognition by the authorities that the accused has committed a specified infraction. When the authorities present the individual with one or more traffic related warnings, then the individual is known as an advisee. The number of traffic warnings may exceed the number of advisees due to multiple traffic warnings being presented during an incident.

Example

A traffic stop occurs for a missing taillight. During the stop, the driver is informed that the taillight is not working, they need to always wear a seat belt, and to carry the operator's license when driving. The resulting counts are 1 advisee and 3 traffic warnings.

Traffic Warning data with race, gender, or magistrate fields left blank have been marked as unknown for the purposes of this report.
