2022 HENRICO POLICE CRIME STATISTICS PART I CRIMES & CRIMINAL OFFENSES

Henrico County Police Division strives each year to keep the public informed about what is occurring countywide. Data continues to be a major component of transparency to the public as well as a divisional tool to address and combat problems occurring in Henrico.

On behalf of Chief Eric English and the Henrico County Police Division we would like for you to examine the following reports on our website under Public Data: [2022 Part I Crimes & Criminal Offenses](#), [2022 Countywide Crime & Demographic Data](#), [2022 Application of Force Report](#), [2022 Vehicular Pursuits Report](#), and the [2022 Internal Affairs Report](#).

These documents will hopefully provide some insight into the daily activity occurring in Henrico County.

About Crime Data

Henrico Police utilizes the FBI's [Uniform Crime Report](#) (UCR) reporting methodology, commonly referred to as Part I Offenses. It does not contain information about all known criminal offenses that have occurred in Henrico County. Part I Offenses include violent offenses (murder, rape, robbery, aggravated assault) and non-violent offenses (burglary, larceny, motor vehicle theft and arson). The Division of Fire has investigative authority over arson.

Total Part I Crime

In 2022, Henrico experienced a 15% increase across the total number of Part I Offenses from 2021, and an 8% increase from the county's five-year average.

The increase in county-wide Part I crime in 2022 is attributed primarily to the increase in burglaries (40%), homicides (20%) and auto thefts (20%) when compared to 2021. Compared to the five-year average, there is an increase in homicide (76%) and assault (14%).

In 2022 there was a 1% decrease in violent Part I offenses compared to 2021 driven by the 13% decrease in robberies.

There are natural crime fluctuations year-to-year; while identifying significant spikes in crime over a short period is important, it is equally important to identify crime trends over long periods of time. Notable anomalies could be attributed to the COVID-19 impact on criminal activity that occurred 2020-2021.

Nevertheless, the reduction of crime and safety of the public remains the top priority of the Henrico County Police Division.
