

Glover Park Master Plan

Community Input Meeting - September 23, 2019

Flip Chart Comments:

- Passive use behind Bent Pine Homes-walking, biking, dog park
- Natural barriers, No industrial fencing
- Playground
- Trail
- Splash pad
- No access from Bent Pine
- Too Much Noise
- No access from Bent Pine
- No stadium
- Leave nature alone please
- Lights too high and bright
- No access from Bent Pine Road
- Lights stay on too late
- Sidewalks on Greenwood Road

Note Card Comments:

- Glover Park has been an inconvenience to the neighborhood. It is a sports venue and has no park facilities for local residents. The lowering of the speed limit for what is a weekend event venue is ridiculous.
- Please have walking trails that are separated from the auto traffic
- Trails
- Please lights on volleyball courts and shower to rinse off
- Sidewalks and crosswalks so Forest Trace and Quail Walk can have access via foot/bike to park!!
- Would like walking trails- very important
- No access from Bent Pine
- Too Noisy
- Lights coming on too soon, staying on too late
- Keep things on other side of track
- No stadium
- Leave nature alone
- Dog park good suggestion
- Dog park
- Walking trail
- Bike trail
- Tennis courts
- Sidewalks to walk to park from nearby neighborhoods
- I'd like to see Off Road Bike Trails in Glover Park
- Walking Trail w/ fitness stations
- Passive use
- Individual use versus team sports

- Consider making Forest Trace Lane/Bent Pine not a driveway entrance but a sidewalk/bike trail entrance with sidewalk that reaches Forest Trace and Quail Walk even
- Green screen walls and bushes trees to block lights
- Lower lights
- Deeper buffer/wooded area around park
- Lights out at 9:00 PM
- Would love to see pedestrian entrance into Glover Park from Woodman Road pedestrian path
- Community center
- Small stadium
- Walking trail
- Fitness equipment
- Playground equipment
- Sidewalk on Greenwood for Forest Trace and Quail Walk
- 1st Priority is running/walking trail with safe access from Quail Walk and Forest Trace
- Would love to have a community center building
- Playground equipment for the kids
- Thanks for the meeting
- Thank you for keeping golf at Belmont
- I hope for walking running trails
- Add or include a walking trail to River Mill Phase II
- Include basketball courts
- Woodman Road Extended- Add a traffic light Virginia Center Pkwy and JEB Stuart (near McDonald and Target)
- Build a over the road "Bridge" for pedestrians on Greenwood Road near Park Entrance
- Would really love to see more multi-purpose athletic fields as the original master plan laid out and with that would hopefully come more regular access to local youth and adult sports leagues vs. bumping for For Profit Tournaments
- An additional dog park would be helpful to reduce crowding at Short Pump Dog Park (with lights for winter evenings)
- Walking trails would also be nice (dog friendly)
- Community Meeting space (indoor and outdoor) would be appreciated
- Where possible, please incorporate volunteer efforts for park improvements. We have seen Eagle Scout projects at parks in other localities that were successful in supporting parks and defraying costs. (Good learning experience for the Scouts or other volunteers plus benefits to the community).
- Need meeting facilities
- More restrooms
- Police surveillance in park
- Need food truck/ice cream trucks parking spaces
- Thx for meetings
- Picnic facilities w/shelters
- Walking Trails
- Bike Trails
- Access to the Park-sidewalks on Greenwood
- Extension of 12' wide trail
- Community Building
- Boat ramp-fishing
- More parking

- More restrooms
- Handicap playgrounds Community Building
- You need emergency access for such a large park- second entrance needs to be off Woodman Road, not Greenwood Road. Entry to Glover already gets very congested at Greenwood when there are events. It will also help keep major congestion out of the round-about
- Need sidewalk from Greenwood ES down to Quail Walk
- No access from Bent Pine
- Natural barrier to Bent Pine Road-No industrial fence
- Lights stay on too late
- Enough parking so no one has to walk down Bent Pine. No stadium
- Dog Park
- 2nd Entrance off Woodman
- If there is an entrance (which we don't want) at Forest Trace/Bent Pine and Greenwood, it must have a stop light
- Playground
- Trail, Splash Pad
- Sidewalk
- Community Meeting Building
- Dog Park
- I would like to see picnic pavilions as well as individual tables with cover
- Also, a light at the Forest Trace Entrance
- Walkway- Nature Trails
- Dog Park
- Keep Volleyball Courts
- No Stadium
- Pickleball courts
- Next Meeting- If they don't use microphone, they have to submit in writing!
- Traffic on Greenwood
- Entrance- can not see vehicle trying to merge onto Greenwood
- Pedestrian safety
- Personal use as well as sports teams
- Walking and exercise trail
- Playground
- The paved walk/ trail needs to extend all the way to Glover Park entrance on Greenwood Road.
- Please do not isolate Forest Trace and Quail Walk neighborhoods-we've been here a long time and we matter, please show it!
- I would like to see 2nd road from Woodman going into the park
- Dog Parks!!!
- I've been part of/connected with Hanover County Dog Parks since 2007. Worked/partnered with Animal Control and Parks and Rec throughout- I would be happy to share what I learned and seen and done with the dog parks not only in Hanover, but also Illinois and Kentucky. Planning is critical, design as well. I would be pleased to provide references such as P&R Director, Deputy Director and Animal Control Chief
- Please do not build more parking and soccer fields adjacent to Branch Road
- We were promised a walking trail connecting to the end of Branch Road
- Light and noise pollution on Branch Road is significant
- Sidewalks along Greenwood (both directions) leading to park

- Tuckahoe District PRAC – Was so pleased to hear Supv. Schmitt mention a special needs section of the playground-very much needed. Might there be- given the size of total acreage-room for more than one playground in the park? (Maybe one for younger children?) Making playgrounds easily available to neighborhood residents is a priority. Dog park, trails, adult exercise stations, taking advantage of river views...all great!
- Cross country course is a great idea
- Championship stadium would be great for tournaments and high school district/region/state championships
- Natural grass (with integral drainage in base)
- Stadium designed with seating on 3-4 sides
- Covered seating/roof
- See bearstadiums.com for eco-friendly, modular concept
- Adaptive playground for handicap individuals
- Dog Park
- Possible water spray park
- Walking trails
- Plenty of parking!!!
- Playgrounds!!!
- No stadium
- No 40' light towers
- Privacy fence for all properties bordered
- Do not fool or bank wetlands
- 2nd entrance across from Forest Trace
- Safe pedestrian access to all entrances plus new Woodman/Winfrey Branch/ Vehicle entry at Forest Trace
- Preserve Nature!!! That's what makes running/biking/walking so great
- Bike Trails-dirt! Like RPS! Northbank/Buttermilk (multi-use)
- River Access for fishing/dipping/swimming (like at RPS) Thank you!
- Lights at Short Pump Park- dog park! Safety and increase usage in fall/winter months. Please consider even if on a timer for neighbors/safety
