

COVID-19 PPE Procedures

Donning & Doffing PPE

1

Donning PPE (Must be done outside Patient Room)

- ▶ Gather needed PPE: Gloves, Gown, N95 Mask & Goggles
- ▶ Always Perform hand hygiene prior to donning PPE
- ▶ Put on gown with thumbs thru thumb hole and tie both ties ensuring that the torso is covered
- ▶ Put on the N95 mask type that you have been fit tested for
- ▶ Adjust N95 mask as shown in the video
- ▶ Ensure that you have a good face to mask seal

2

Donning PPE (Continued)

- ▶ Put goggles on
- ▶ Put gloves on and extend to wrist with no gap between gown and gloves
- ▶ If possible, have another co-worker inspect your PPE, and that it is properly put on
- ▶ Now that you have all PPE on correctly; you may enter the patient room

3

Doffing PPE

- ▶ Grasp Gown in front & pull gown forward from front to break the plastic ties
- ▶ While removing the gown, roll gown into a bundle, removing gloves with the gown
- ▶ Perform Hand Hygiene
- ▶ Remove goggles without touching the front of them

4

Doffing PPE (Continued)

- ▶ Perform Hand Hygiene
- ▶ Leave the patient room
- ▶ Remove N95 mask (Do not touch front of N95 Mask)
- ▶ Perform Hand Hygiene
- ▶ Doffing PPE is now complete
