

**Application for Partial Tax Exemption
For Abatement of a Derelict Building
(Demolition, Rehabilitation or New Construction)**

A \$50.00 non-refundable processing fee must accompany this application if the applicant seeks partial exemption for demolition of the existing derelict building and replacement with new construction. There is no fee if exemption is sought for demolition only or for rehabilitation of the derelict building. Refer to General Information attached to this application for more information about the options and fees.

General Information for Partial Tax Exemption of Derelict Buildings

Section 20-84 of the Code of Henrico County provides for partial real estate tax exemption for demolition or renovation of qualifying derelict buildings. As authorized by state law, the Henrico County Board of Supervisors adopted a tax abatement incentive to demolish or rehabilitate these derelict buildings in the County. The Building Official will determine whether the building qualifies for a derelict building designation. In addition, other exemptions in County Code provide exemptions for the demolition and replacement of structures in the County, depending on their age, use, and size. The Real Estate Assessment Division (Division) of the Department of Finance is the administering agency of the partial tax exemption program. The following is general information that may be useful to applicants considering participation in the program:

- ❑ An application for Partial Tax Exemption of a demolished or rehabilitated Derelict Building should be filed with the Division prior to or simultaneously with making application for a building permit(s) to commence demolition, renovation, or construction.**
- ❑ Upon receipt of an application, a representative from the Division will schedule an inspection of the existing derelict building to establish a base value for the program or to establish demolition costs for the derelict building.**
- ❑ If the derelict building is demolished and replaced with a new building, the new building must conform to the guidelines of the partial exemption for rehabilitated structures program (REINVEST). In general, the new building must increase the base value by no less than 40 percent for Commercial structures, 50 percent for Multi-Family structures, or 20 percent for Residential structures in order to qualify. It must also not exceed the square footage of the original building by more than 100 percent, except in the case of the Multi-Family Option 2 scenario. See REINVEST guidelines for further information.**
- ❑ Derelict buildings that will be demolished or rehabilitated must conform to the timelines and plans approved by the Building Official.**
- ❑ Derelict buildings that will be demolished and replaced with a new building must additionally conform to the partial exemption for rehabilitated structures program (REINVEST) guidelines and be completed three years from the date the structure base value is established. If the new construction has not increased the base value of the structure by at least 40 percent for Commercial structures, 50 percent for Multi-Family structures, or 20 percent for Residential structures, a new application may be filed prior to the expiration date, and a revised base value established. In no event, however, shall there be more than two additional applications following the initial application on any structure. Except, where a Multi-Family rehabilitation project encompasses at least 50 contiguous acres on which demolition of all structures takes place within one year of the initial application, a total of six additional applications following the initial application may be filed. Under no circumstances shall any new base value be less than the original base value.**

- ❑ **An owner may, prior to November 1 of any calendar year in which the demolition, rehabilitation, or new construction is underway, submit a written request to the Division to inspect the demolition or structure to determine if all qualifications for exemption have been met. If the qualifications have been met, the exemption will become effective beginning January 1 of the following year.**
- ❑ **The owner of property qualifying for partial exemption of real estate taxes due to rehabilitation or new construction of a structure shall be issued a credit memorandum for the difference in taxes computed upon the base value and the increased assessed value resulting from the rehabilitation for a seven-year period*. Additional increases in assessed value during subsequent years of the seven-year period* shall not be eligible for partial tax relief. Decreases in assessed value during subsequent years of the seven-year period* may reduce the partial exemption amount.**
- ❑ **The owner of property qualifying for partial exemption of real estate taxes due to demolition-only of a derelict building shall be issued a credit memorandum for the cost of the demolition, provided cost is in line with currently recognized demolition costs in the market. The owner shall provide evidence of cost from a demolition contractor.**
- ❑ **In determining the base value of a structure and whether the rehabilitation results in a 40 percent increase for Commercial structures, a 50 percent increase for Multi-Family structures, or a 20 percent increase for Residential structures over such base value, the Division shall employ accepted and customary assessment methodology.**

***Fifteen-year period for exterior-corridor hotels.**
