

# Make a Superhero Backdrop

<https://themommyway.com/diy-superhero-birthday-party-ideas/>

**Time Required:** 30 minutes

**Prep Required:** None

**Space(s) Needed:** Indoor

## Materials:

- Blue plastic tablecloth
- Black poster board (5 sheets)
- Yellow poster board (1 sheet)
- Tape
- Scissors

## Instructions:

**Step 1.** Hang the blue plastic tablecloth wherever you want your backdrop to be.

**Step 2.** Draw out a cityscape (random height rectangles, occasional triangle top) buildings on the black poster board. Combine two pieces of poster board for extra tall buildings.

**Step 3.** Use the scissors to cut out your cityscape.

**Step 4.** Tape the cutout black poster board to the blue plastic tablecloth.

\*Note: double sided tape doesn't hold up well. Use masking tape for a more secure hold.

**Step 5.** Cut out small rectangles using the yellow poster board.

**Step 6.** Tape the yellow rectangles randomly on the black poster board to give the illusion of building lights being on at night.

## Variation:

- Use a trifold or side of a large box instead of poster board.
- Use construction paper as needed for backdrop or buildings.
