**Space (s) Needed:** Indoor

## Materials:

Canvas

Cardboard tubes

Acrylic craft paint

**Step 1:** If you're painting over an old canvas, you'll want to prepare the surface with a primer. This will cover up all traces of the original piece of art.

**Step 2:** Pour a small amount of paint into some small bowls, plastic lids, or a plate and set out the cardboard tubes.

**Step 3:** Dip the end of each tube into a different color, match the color on the bottom of the tube to the color of paint that they were dipping into. Try not to mix paint colors.

**Step 4:** Stamp the painting with colorful rings.

## Variation:

1. Use cardstock paper
2. Use Tempera paint (washable)
