## **Henrico Police Issues a Scam Alert**

Henrico Police is making the public aware of a scam targeting local businesses.

Henrico Police has been made aware of a scam being perpetrated by a fraudulent company offering advertising services to local businesses. The victim business receives an unsolicited telephone call from a person representing the company as an associate of a local high school booster club. The company offers banner space, T-shirts, and other sporting event promotional items to the business and suggests that a portion of the proceeds will go to support school athletics. If purchased, the company says they will send the promotional items to the local high school to be displayed or given away at sporting events.

The scam starts with the use of telemarketing and progresses to e-mail correspondence. A series of official-looking documents and detailed correspondences are sent to the victim business. Once payment is received, a small sample of inferior products is shipped, but the complete order is never delivered. This fraudulent promotion is not associated with any Henrico County school. The high schools do not receive any monetary proceeds that the fraudulent company promises will be donated to the school.

To avoid being a victim, businesses are encouraged not to participate in an unsolicited offer for advertisement benefitting school athletics without verifying its authenticity. If a business wishes to participate, it is recommended that someone contact a representative from the school to confirm the legitimacy of the promotion.

If your business has been the victim of this type of scam, and it has not been reported, you can contact Henrico Police at (804) 501-4810.

The program is free and anonymous. Unused or expired pills and patches will be accepted. Liquids, needles and sharp items will **not** be accepted. No questions will be asked.

Last October Americans turned in 456 tons (900,000 pounds) of prescription drugs at more than 5,300 sites operated by the DEA and over 4,200 of its state and local law enforcement partners.

This initiative addresses a vital public safety and public health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet. In addition, Americans are now advised that their usual methods for disposing of unused medicines—flushing them down the toilet or throwing them in the trash—pose potential safety and health hazards.

# MEDIA ADVISORY

---

June 18, 2018

Richmond Area Media Representatives:

In collaboration, the chief law enforcement officers of Chesterfield, Henrico, and Richmond write to inform you that our agencies will be encrypting police radio frequencies on July 2, 2018. Once this change occurs, law enforcement radio transmissions can only be monitored by authorized public safety personnel.

There are two reasons area law enforcement agencies are moving to encrypt their radio transmissions:

The first reason is to promote the safety of first responders and community members by ensuring that the dissemination of in-progress tactics and activities during high-risk events is limited to those whose mission is to resolve events swiftly and with minimal risk to those involved. The second reason is to ensure that sensitive personal information being communicated to resolve an event does not violate legal rights or reasonable expectations of privacy.

We are mindful of the impact that police radio encryption may have on our media partners. In response, we have tasked our staffs with developing alternative ways of keeping you informed of active, real-time information. Though each agency's approach may vary somewhat, the objective of each is to work with and support you as you fulfill your mission.

In the near future our public information officers will be communicating with you about how our respective agencies will be enhancing the ways we will share information.

## **Henrico Police Offers Drug Take Back Program**

The Henrico County Police Division along with the U. S. Drug Enforcement Administration will participate in the nationwide Prescription Drug Take Back Program. This will take place on **Saturday, October 27, 2018 from 10:00 a.m. to 2:00 p.m.** at four locations in Henrico County.

- **Henrico Training Center, 7701 E. Parham Road** (access from Shrader Road).
- **Varina Public Library, 1875 New Market Road**
- **Eastern Henrico Recreation Center, 1440 N. Laburnum Avenue**
- **Wegmans – Short Pump, 12200 Wegmans Boulevard**

The program is free and anonymous. Unused or expired pills and patches will be accepted. Liquids, needles and sharp items will **not** be accepted. No questions will be asked.

Last April, Americans turned in 474.5 tons (949,046 pounds) of prescription drugs at more than 5,800 sites operated by the DEA and over 4,600 of its state and local law enforcement partners.

This initiative addresses a vital public safety and public health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet. In addition, Americans are now advised that their usual methods for disposing of unused medicines—flushing them down the toilet or throwing them in the trash—pose potential safety and health hazards.

For more information on the program, visit [www.dea.gov](http://www.dea.gov).

## **Henrico Police Issues a Scam Alert**

Henrico Police is making the public aware of a scam targeting local businesses.

Henrico Police has been made aware of a scam being perpetrated by a fraudulent company offering advertising services to local businesses. The victim business receives an unsolicited telephone call from a person representing the company as an associate of a local high school booster club. The company offers banner space, T-shirts, and other sporting event promotional items to the business and suggests that a portion of the proceeds will go to support school athletics. If purchased, the company says they will send the promotional items to the local high school to be displayed or given away at sporting events.

The scam starts with the use of telemarketing and progresses to e-mail correspondence. A series of official-looking documents and detailed correspondences are sent to the victim business. Once payment is received, a small sample of inferior products is shipped, but the complete order is never delivered. This fraudulent promotion is not associated with any Henrico County school. The high schools do not receive any monetary proceeds that the fraudulent company promises will be donated to the school.

To avoid being a victim, businesses are encouraged not to participate in an unsolicited offer for advertisement benefitting school athletics without verifying its authenticity. If a business wishes to participate, it is recommended that someone contact a representative from the school to confirm the legitimacy of the promotion.

If your business has been the victim of this type of scam, and it has not been reported, you can contact Henrico Police at (804) 501-4810.

## **National Public Safety Telecommunicator's Week**

National Public Safety Telecommunicator's Week is being celebrated April 8 - 14, 2018 and recognized locally in Henrico County by proclamation of the Henrico County Board of Supervisors. This special week, annually, honors the men and women in the emergency 911 center who receive, dispatch, and render lifesaving assistance to citizens in Henrico County.

In 2017, Henrico County emergency communications personnel handled over 500,000 telephone calls, of which, more than 178,000 were emergency 911 calls. Our communications personnel provide the vital link between Police, Fire, and Emergency Medical Services personnel and the citizens of Henrico County. They are the gateway to all emergency services needed by our citizens and the primary providers of critical information for Henrico's first responders. Police Chief Humberto Cardounel and Fire Chief Tony McDowell said their respective agencies are proud to honor these dedicated professionals during the week that was designated to recognize their services and commitment to professionalism.

## **Henrico Police Offers Drug Take Back Program**

The Henrico County Police Division along with the U. S. Drug Enforcement Administration will participate in the nationwide Prescription Drug Take Back Program. This will take place on **Saturday, April 28, 2018 from 10:00 a.m. to 2:00 p.m.** at three locations in Henrico County.

- **Henrico Training Center, 7701 E. Parham Road** (access from Shrader Road).
- **Varina Public Library, 1875 New Market Road**
- **Eastern Henrico Recreation Center, 1440 N. Laburnum Avenue**

The program is free and anonymous. Unused or expired pills and patches will be accepted. Liquids, needles and sharp items will **not** be accepted. No questions will be asked.

Last October Americans turned in 456 tons (900,000 pounds) of prescription drugs at more than 5,300 sites operated by the DEA and over 4,200 of its state and local law enforcement partners.

This initiative addresses a vital public safety and public health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet. In addition, Americans are now advised that their usual methods for disposing of unused medicines—flushing them down the toilet or throwing them in the trash—pose potential safety and health hazards.

For more information on the program, visit [www.dea.gov](http://www.dea.gov).

# MEDIA ADVISORY

---

June 18, 2018

Richmond Area Media Representatives:

In collaboration, the chief law enforcement officers of Chesterfield, Henrico, and Richmond write to inform you that our agencies will be encrypting police radio frequencies on July 2, 2018. Once this change occurs, law enforcement radio transmissions can only be monitored by authorized public safety personnel.

There are two reasons area law enforcement agencies are moving to encrypt their radio transmissions:

The first reason is to promote the safety of first responders and community members by ensuring that the dissemination of in-progress tactics and activities during high-risk events is limited to those whose mission is to resolve events swiftly and with minimal risk to those involved. The second reason is to ensure that sensitive personal information being communicated to resolve an event does not violate legal rights or reasonable expectations of privacy.

We are mindful of the impact that police radio encryption may have on our media partners. In response, we have tasked our staffs with developing alternative ways of keeping you informed of active, real-time information. Though each agency's approach may vary somewhat, the objective of each is to work with and support you as you fulfill your mission.

In the near future our public information officers will be communicating with you about how our respective agencies will be enhancing the ways we will share information.

## **Henrico Police Offers Drug Take Back Program**

The Henrico County Police Division along with the U. S. Drug Enforcement Administration will participate in the nationwide Prescription Drug Take Back Program. This will take place on **Saturday, October 27, 2018 from 10:00 a.m. to 2:00 p.m.** at four locations in Henrico County.

- **Henrico Training Center, 7701 E. Parham Road** (access from Shrader Road).
- **Varina Public Library, 1875 New Market Road**
- **Eastern Henrico Recreation Center, 1440 N. Laburnum Avenue**
- **Wegmans – Short Pump, 12200 Wegmans Boulevard**

The program is free and anonymous. Unused or expired pills and patches will be accepted. Liquids, needles and sharp items will **not** be accepted. No questions will be asked.

Last April, Americans turned in 474.5 tons (949,046 pounds) of prescription drugs at more than 5,800 sites operated by the DEA and over 4,600 of its state and local law enforcement partners.

This initiative addresses a vital public safety and public health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet. In addition, Americans are now advised that their usual methods for disposing of unused medicines—flushing them down the toilet or throwing them in the trash—pose potential safety and health hazards.
