Section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended, requires local jurisdictions to develop and adopt hazard mitigation plans to be eligible to receive certain federal mitigation grant funds. These plans must be updated every five years.

Find out more about what hazards are covered in our regional plan and learn how we are modeling the impacts of those hazards where you live. Determine what actions your community has committed to in order to reduce the impacts of hazards on critical infrastructure. Provide feedback so that the final plan reflects your concerns.
