Equipment

Empty can or empty plastic bottle

Directions

You got to be quick!

Step 1: Designate one person to be "it".

Step 2: Place empty can in open playing field.

Step 3: With eyes closed "it" counts to an agreed number (30) and the other players run and hide.

Step 4: "It" tries to find and tag each of the players, always keeping a watchful eye on the can.

Step 5: Each player that is tagged will be sent to an assigned area named the "Jail".

Step 6: When the can is kicked the game is over. If all players are captured the game is over.

Variation

To increase social distancing "it" can use a pool noodle to tag other players.
