

Jelly Fish

<https://www.freekidscrafts.com/multi-color-jellyfish/>

Time Required: 30-45 minutes

Prep Required: None

Space (s) Needed: Indoor

Materials:

Tempera Paint

Paint brushes

White glue

Google eyes

Crepe paper/streamers

Scissors

Paper plates

Paper bowls

Instructions:

1. Punch a small hole at the center of a paper bowl using a pencil.
2. Paint the outside of the paper bowl
3. Allow your painted bowl to dry completely.
4. Cut string to a length of about 6 inches or more and insert the string through the hole on your paper bowl.
5. Tape the lower end of the string from inside your paper bowl.
6. Use crepe paper/streamers make the jellyfish tentacles.
7. Glue the end of a strip onto the center of your paper bowl.
8. Continue gluing the tissue paper strips from the center of your bowl to form a radial pattern.
9. Once the glue has dried, unveil your jellyfish by gently turning your paper bowl upside down and holding your jellyfish by the string. You can make your jellyfish swim in the air by moving your arms from side-to-side.
10. Draw a funny face using crayons, marker or paint. You may also glue on a pair of googly eyes if you like.

Variations:

1. Use markers to color bowl instead of paint.
2. Use ribbon or yarn instead of streamers for tentacles.
