

PERMIT CENTERS

DESCRIPTION

The Department of Community Development, better known as the Permit Centers, is a convenient “one-stop shop” for residents seeking community development services including permits and applications. The Department has two locations referred to as the Permit Center-East and the Permit Center-West. The Permit Center-East has been in service since 1989. Due to the success of the eastern location, services were expanded to a western location that opened in April 2001. The Permit Centers are staffed by representatives from Building Inspections, Planning, Public Utilities, and Public Works.

OBJECTIVES

- To consistently provide quality services to all citizens and customers in a professional, accurate, and efficient manner.
- To assist the public, including private citizens, builders, developers, and engineers, with their permitting and licensing needs.
- To provide information to the public concerning the requirements and regulations related to zoning and subdivisions of property, building construction, and other aspects of the development process.
- To assist the public with questions concerning the agendas and processes of the Planning Commission and Board of Zoning Appeals.
- To provide a streamlined development review process at a convenient location.
- To accurately track, monitor, and administer the costs of providing these services in order to provide them in a cost efficient manner.

FISCAL YEAR 2021 SUMMARY

Annual Fiscal Plan

Description	FY19 Actual	FY20 Original	FY21 Approved	Change 20 to 21
Personnel	\$ 1,099,100	\$ 1,199,254	\$ 1,066,965	(11.0%)
Operation	14,905	21,489	13,117	(39.0%)
Capital	3,405	8,813	8,372	(5.0%)
Sub-Total	\$ 1,117,410	\$ 1,229,556	\$ 1,088,454	(11.5%)
Interdepartmental Billings	(251,808)	(287,990)	(293,282) *	1.8%
Total Budget	\$ 865,602	\$ 941,566	\$ 795,172	(15.5%)
Personnel Complement	16	16	16	0

*Reflects the reimbursement of four positions (2 Public Works; 2 Public Utilities) assigned to the Permit Center, which are reflected in the Permit Centers' personnel complement.

Permit Applications Received	5,616	6,128	6,251	123
Reviews Performed	6,509	7,613	7,766	153
Business Licenses Reviewed	2,804	2,691	2,745	54

BUDGET HIGHLIGHTS

The Permit Centers' budget for FY2020-21 is \$795,172, which reflects a decrease of \$146,394, or 15.5 percent, from the prior approved budget. Operating and capital outlay components have both respectively decreased by 39.0 percent and 5.0 percent for FY2020-21. All decreases were the result of the economic downturn in response to the public health emergency created by COVID-19.

Staff is utilized from Building Inspections, Public Works, Public Utilities, and Planning. Funds to pay for staff serving these functions are in the Permits Centers' budget and complement. Four staff members included in the complement have their personnel expenditures reimbursed, via interdepartmental transfer, by the appropriate department related to the services furnished. Those reimbursements for FY2020-21 will be from the Public Works and Public Utilities departments. The sum of these offsets, totaling \$293,282, is shown as a negative amount in the Permit Centers' budget.

DEPARTMENTAL HIGHLIGHTS

The one-stop convenience at both the East and West locations simplifies the process for obtaining permits for the customer and improves overall service levels. Services provided include the processing of building permits and answering inquiries regarding code regulations, zoning, water/sewer availability, as well as road and drainage issues.

The Permit Centers were designed to make it more convenient to process and approve a permit at a central location. Technology was one of the driving forces to accomplish this process through the use of the Geographic Information System (GIS) and the Tidemark software system. Now, when a resident or builder enters the Permit Centers, they can leave with an approved permit for additions, decks, and accessory structures in one hour or less. Customers can also have copies of maps within fifteen minutes. The department continues to evaluate areas to improve operational efficiencies as an ongoing effort. For example, the department has implemented new management practices to make the staff more flexible in responding to citizens' request for assistance. In addition, regular staff rotations have continued between the East and West Permit Centers, allowing junior staff the opportunity to experience a wider variety of public service environments, hone and exercise leadership skills and practice supervisory techniques. Also, the department continues to work closely with cooperating agencies through consultation with their counterparts to ensure that customer assistance is being provided consistent with established policies, regulations and interpretation.

Permit Centers

In an effort to increase employee engagement and job satisfaction, a policy was established allowing technicians to shadow employees in other departments whose missions align with the overall objectives of the Permit Centers and are of personal and professional interest to the technicians. This effort has broadened the scope of technicians' understanding of services delivered by cooperating agencies, increased employee morale and contributed to a more comprehensive perspective of the Permit Centers' processes and enhanced customer service.
