

CAPITAL IMPROVEMENT PROGRAM

The Capital Improvement Program (CIP) accounts for capital improvement projects that generally require a significant outlay of funds and have a project life of longer than one year. Once funds are appropriated to the Capital Projects Fund for a project, the funds remain appropriated until the project is completed.

Henrico County's capital improvement needs and funding requirements are outlined in a separate document - the Capital Improvement Program FY2018-19 through FY2022-23. The CIP represents infrastructure improvements requested by County departments over the next five years to meet existing and future service obligations. In evaluating each of the projects, the CIP process takes into account such factors as population growth, density, desired service levels, economic development concerns, and the County's fiscal condition. In the end, the CIP reflects the needs and desires of the residents of Henrico.

The CIP also represents a balance between available resources and competing County priorities. In an effort to ensure that the County's infrastructure is meeting the service delivery needs of our residents, the Board of Supervisors, in consultation with the Henrico County School Board, presented a plan to fund \$419.8 million of projects utilizing General Obligation (G.O.) Bonds. These projects were approved by County voters in the November 2016 election and are considered the highest priority projects. Funding for these projects began in FY2017-18 and will traverse a six-year period (through FY2022-23). With the approval of the bond referendum, County residents affirmed these projects are important to the quality of life in the County and are considered the highest priority projects.

Routine maintenance associated with both Education and General Government facilities is addressed as a means of ensuring our infrastructure does not deteriorate. Other projects given high priority are the ones vital to the economic growth of the County including infrastructure improvements associated with water and sewer transmission. With the approval of the Bond Referendum, many of the County's needs will be met. However, a significant number of projects submitted in the FY2018-19 through FY2022-23 CIP do not have an identified funding source at this time.

The Capital Improvement Program provides for the orderly and systematic financing and acquisition of

public improvements. It also provides information for the individual taxpayer, neighborhood councils, and other civic groups interested in the County's development plan; a statement of intention for Federal and State agencies who provide grants-in-aid to the County; and a source of information for potential investors who may purchase municipal securities. By projecting and scheduling capital improvements in advance of actual needs, the County obtains several advantages.

1. Reduction of the need for "crash programs" to finance the construction of County facilities.
2. Budgeting takes place within a system, which assures capital projects will be built according to a predetermined priority system while planning in advance for revenue needed to finance and complete these capital projects.
3. Advance planning ensures projects are well thought out in advance of construction.
4. It permits major purchases to be scheduled in conjunction with favorable market conditions.
5. Coordination with the operating budget is ensured. An important aspect of capital improvement planning is the affect capital expenditures have upon the annual operating cost of the County. When a new facility is established, it must be maintained and staffed, and obligations, which begin when it is made operational, will become continuous. Within the Proposed FY2018-19 Operating budget, all operating costs arising from current and previously approved capital projects that are becoming operational have been accounted for through a crosswalk analysis that is updated annually.

Funding for CIP projects typically comes from two major sources: long-term borrowing and current revenues (pay-as-you-go financing). The operating budget is the primary mechanism through which current revenues are appropriated to capital projects. It is important to note that the FY2018-19 CIP includes the Education Meals Tax revenue which was approved by the voters in November 2013. A total of \$9.0 million associated with this revenue has been dedicated to various school maintenance and rehabilitation projects. Other sources of financing for the CIP can include State Construction grants, State

Capital Improvement Program (cont'd)

Lottery funds, State Transportation funds, and Enterprise Fund resources. The amount appropriated for capital projects each year is based on the Capital Improvement Program in effect at the time of the development of the capital budget. The FY2018-19 through FY2022-23 CIP requests of \$1,211,176,193 represents an increase of \$151,879,079 from the current FY2017-18 through FY2021-22 CIP of

\$1,059,297,114. These needs are put forward by Departments, and prioritized by the Departments over the five-year period. The proposed Capital Budget for FY2018-19 funds \$176,964,800 in the first year of the CIP.

Capital Improvement Program Calendar

Capital Improvement Program (CIP) preparation requires careful scheduling so the responsible officials are given adequate time and complete information to make sound program decisions. The large volume of data to be compiled into a clear, concise project request, requires the steps in the budget-making process be taken in scheduled and logical sequence. The Capital Improvement Program calendar provides, in chronological order, the key dates set each year to ensure prompt and efficient preparation and adoption of the Capital Budget:

MIDDLE OF JULY - Call for CIP estimates, calendar of dates, and other related information sent to departments.

FIRST WEEK OF SEPTEMBER - Deadline for submission of CIP requests to the Office of Management and Budget.

FIRST WEEK OF OCTOBER - Office of Management and Budget briefs CIP Review Committee and County Manager on status of CIP requests.

FOURTH WEEK OF NOVEMBER - Office of Management and Budget furnishes CIP Review Committee with details and summaries of departmental CIP requests.

SECOND WEEK OF DECEMBER – The County Manager and the CIP Review Committee conducts executive reviews with departments.

MIDDLE OF JANUARY – The County Manager and the CIP Review Committee submits the CIP and recommended Capital Budget to the Planning Commission.

MIDDLE OF JANUARY – Planning Commission announces a public hearing on the CIP for middle of February.

MIDDLE OF FEBRUARY – Planning Commission conducts public hearing and submits comments on CIP to the County Manager.

SECOND WEEK OF APRIL – Board of Supervisors conducts public hearing on the proposed Capital Budget.

LAST WEEK OF APRIL - Board of Supervisors adopts Capital Budget.

CAPITAL IMPROVEMENT PROGRAM IMPLICATIONS ON OPERATING BUDGET

The Capital Improvement Program (CIP) accounts for capital improvement projects that generally require a significant outlay of funds and have a project life of longer than one year. Henrico County's capital improvement needs and funding requirements are outlined in the Capital Improvement Program FY2018-19 through FY2022-23.

Bringing a new facility on-line requires additional costs such as maintenance, utilities, and personnel to operate the new facility. This impact to future operating budgets is considered before funding for a capital project is recommended. Operating costs associated with a new facility are added to departments' budgets in the year of the facility's projected opening date through a complete "crosswalk" between the capital and operating budgets.

The proposed Capital Budget for FY2018-19 is \$176,964,800, which funds a portion of the project

requests in the first year of the CIP. The projects in the FY2018-19 proposed Capital Budget do not have an operating impact on the FY2018-19 operating budget as the operating costs have implications on operating budgets beyond FY2018-19. Those costs have been factored into the County's multi-year expenditure forecasts. The FY2018-19 budget reflects new operating costs of \$928,076. These operational costs are in support of the following projects: Fairfield Area Library, Greenwood Park, Fire Training Center, and high school field renovations. These operating costs are being funded utilizing the Revenue Stabilization Reserve, which was established in FY2000-01 to offset the increase in operating costs associated with bond funded projects.

What appears in the following pages is the estimated incremental impact of operating costs that would arise from all the current capital projects requested within the five-year Capital Improvement Program.
