Bay Design Group, P.C. for Richard C. & Doris Brown and Wilton Real Estate & Development Corporation: The 12.00 acre site is located on the south line of Nuckols Road opposite its intersection with Dominion Hills Boulevard on part of parcels 10-A-12, 14 and 17C. As of the preparation date of this agenda, staff is not in position to recommend approval of this proposed subdivision due to a number of unresolved issues. The location of wetlands on the site impacts the proposed layout and a revision appears to be necessary. A lack of water quality information provided at the time of submittal has raised questions concerning the location and design of BMP's. Staff also has concerns about the adjoining property that is part of the original rezoning cases and is designated as future sections of this project, but is not part of the conditional approval application. Staff will continue to work towards resolution of these issues prior to the meeting. Should the Commission act on this request, in addition to the standard conditions for subdivisions served by public utilities, the following additional conditions are recommended:

12. Each lot shall contain at least 18,000 square feet, exclusive of floodplain areas.
13. The limits and elevation of the 100-year frequency flood shall be conspicuously noted on the plat and construction plans and labeled "Limits of 100-Year Floodplain." Dedicate floodplain as a "Variable Width Drainage & Utility Easement."
14. The detailed plant list and specifications for the landscaping to be provided within the 30-foot-wide planting strip easement along Nuckols Road shall be submitted to the Planning Office for review and approval prior to recordation of the plat.
15. A County standard sidewalk shall be constructed along the south side of Nuckols Road.
16. The proffers approved as part of zoning cases C-39C-00 and C-48C-90 shall be incorporated in this approval.
17. Prior to final approval, a draft of the covenants and deed restrictions for the maintenance of the common area by a homeowners association shall be submitted to the Planning Office for review. Such covenants and restrictions shall be in form and substance satisfactory to the County Attorney and shall be recorded prior to recordation of the subdivision plat.
18. The developer shall provide signage, the wording and location as deemed appropriate by the Director of Public works, which addresses the possible future extension of any stub street.
19. Final approval shall not be granted for any portion of this subdivision until an overall plan for the entire subdivision showing all future sections has been granted conditional approval by the Planning Commission.
