1. **Planting Strip.** No ingress or egress shall be allowed across the twenty-five (25) foot enhanced setback along Oakland Road to individual lots. Natural vegetation may form part of the enhanced setback. Required plantings within the enhanced
setback shall be equivalent to the County's twenty-five (25) foot transitional buffer and shall be planted prior to release of the subdivision completion bond.

2. **Brick Steps.** Steps to the main entrance of homes shall be of brick. However, homes with a front porch without a brick foundation shall utilize brick pier supports with lattice screening between the porch floor and ground, and porch steps may be of brick or wood.

3. **Density.** No more than fourteen (14) homes shall be constructed on the Property.

4. **Foundations.** All residences shall have crawl spaces and all exposed foundations of each residence shall be of brick or stone. Additionally, a foundation, which matches the construction of the foundation of the home, shall be required around the entire perimeter of any deck that is converted for year-round use or to which a roof is added.

5. **Cantilevered Items.** No chimney, direct vent fireplace, or bay window shall be cantilevered. All chimneys, direct vent fireplaces, or bay windows shall have foundations with the exposed portions made of the same material as the house foundation. Chimneys shall be constructed entirely of brick or stone.

6. **Landscaping.** The area adjacent to the foundation of the front elevation of each home shall be screened by landscaping prior to the issuance of a final certificate of occupancy. Two (2) trees each having a caliper of at least two and one-half inches (2 1/2”) shall be installed in the front yard of a lot that does not have at least two (2) existing trees of such size. Air conditioning equipment in the side yard of a home shall be screened with lattice fencing or shrubbery.
