Attention: Mr. Henry L. Waller

Gentlemen:

The Board of Supervisors at its meeting on April 8, 1998 granted your request for a revocable Provisional Use Permit in order to construct a 195' high communications tower and related equipment on part of Parcel 36-A-18C, subject to the following conditions:

1. If the use of the tower for communication purposes is discontinued, the tower and all related structures shall be removed from the site within ninety (90) days.
2. Application for a building permit to install the tower must be made within one year after the Provisional Use Permit is granted by the Board of Supervisors, unless an extension of time is granted by the Director of Planning upon written request by the applicant.
3. The applicant shall obtain approval from the Henrico County Planning Commission should the FAA require the addition of standard obstruction marking and lighting (i.e. red lighting and orange and white striping) to the tower. The applicant shall notify the Henrico County Planning Director prior to making any changes to the original galvanized finish of the tower.
4. When site construction will be initiated as a result of this Provisional Use Permit, the applicant shall complete requirements prescribed by Chapter 10 of the Henrico County Code. In particular, land disturbance of more than 2,500 square feet will require that construction plans include a detailed drainage and erosion control plan prepared by a professional engineer certified in the State of Virginia. Ten (10) sets of the construction plans shall be submitted to the Department of Public Works for approval.
5. The applicant shall allow the co-location of at least 3 or as many additional users as technically possible at this site in accordance with the provisions of the Letter of Intent to Permit Co-location on Communications Tower filed by the applicant with this request.
