Re: Provisional Use Permit PUP2016-00012

Dear Mr. Middleton:

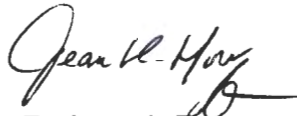

The Board of Supervisors at its meeting on December 13, 2016, approved your request for a Provisional Use Permit under Sections 24-95(a)(3), 24-120 and 24-122.1 of Chapter 24 of the County Code in order to construct a lattice-style public safety telecommunications tower up to 174' in height and related equipment on part of Parcel 753-740-8228, located approximately 170' southeast of the intersection of Ridge Road and Henrico Avenue, subject to the following conditions:

1. The height of the telecommunication tower and all equipment shall not exceed 174 feet.
2. This permit shall apply only to the lease area identified in Exhibits A and B (see case file).
3. Application for a building permit to install the telecommunication tower must be made within one year after the Provisional Use Permit is granted by the Board of Supervisors, unless an extension of time is granted by the Director of Planning upon a written request by the applicant.
4. When site construction is initiated as a result of this Provisional Use Permit, the applicant shall complete requirements prescribed by Chapter 10 of the Henrico County Code. In particular, land disturbance of more than 2,500 square feet will require that construction plans include a detailed drainage and erosion control plan prepared by a professional engineer certified in the State of Virginia.
5. To ensure adequate screening of the ground equipment compound, a landscaping plan shall be submitted with the building permit application to construct the tower. The Director of Planning may waive this condition if supplemental screening is determined not to be necessary.
